

How the Marketplace Works

Create an account

First provide some basic information. Then choose a user name, password, and security questions for added protection.

Apply

Next you'll enter information about you and your family, including your income, household size, other coverage you're eligible for, and more.

Visit HealthCare.gov to get a checklist to help you gather the information you'll need.

Pick a plan

Next you'll see all the plans and programs you're eligible for and compare them side-by-side.

You'll also find out if you can get lower costs on monthly premiums and out-of-pocket costs.

Enroll

Choose a plan that meets your needs and enroll!

Coverage starts as soon as January 1, 2014.
