

How to wear a mask

CORRECT

INCORRECT

Mask necklace

Mask goatee

Mouth Mask

- Every time you touch your mask you risk touching your face and infecting yourself.
- To dispose of a used mask, remove it by the face straps, avoid touching the surface of the mask. For meals:
 1. Remove your mask correctly, place in a paper bag, wash hands, and eat.
 2. Re-don the mask using proper technique, wash hands again, and return to work.
- We recommend that you don your mask appropriately and *leave it in place for the duration* of your shift.
- A mask worn below the nose or under the chin will not protect you!

INAPPROPRIATE MASK USE MAY INCREASE YOUR RISK OF EXPOSURE
